

# NOVATEX NS-QNZ-2

## AIR PRESS-FASTENER MACHINE SERIES

"Excellence stems from speci

### 特点 Features

- 1、 It is not necessary to change the height of the matrix, when a fastener is set on different thick cloth .
- 2、 It is only needed to change different matrixes when set different fasteners in the cloth, instead of changing the gather-sewing, because of using baric transmission system.
- 3、 The time-lapse system make the products more perfect and firm than before.
