BASS-5800

Našumas – 480 kelnų per 8 darbo valandas

Three different work steps can be done efficiently and with high seam quality on BASS 5800.

The sewing system BASS 5800 is designed for small to medium size trouser production facilities. Beside felling pocket facings on pocket pouches, the left fly piece can be felled and the right fly piece can be felled on, and even the right and left pocket facings can be felled at the opening.
